Outlook Horoscope

**Aries (Mar. 22-Apr.20)**

You might wake up feeling a little under the weather, perhaps too tired to go anywhere, and you'll want to stay in. Perhaps this is the best course of action for today. You may be tired and a bit stressed out, Taurus, and more vulnerable than usual to any bugs may be going around at this time. Drink lots of juices and get some rest.

**Taurus (Apr.21-May 20)**

You might wake up feeling a little under the weather, perhaps too tired to go anywhere, and you'll want to stay in. Perhaps this is the best course of action for today. You may be tired and a bit stressed out, Taurus, and more vulnerable than usual to any bugs may be going around at this time. Drink lots of juices and get some rest. Tomorrow you will probably feel much better.

**Gemini (May 21-June 20)**

Today you might get the feeling that someone in your family is hiding something. The atmosphere might be strained and somewhat tense. Your natural inclination is to try to spread oil on troubled waters to return the situation to normal, Gemini, but this isn't likely to be the right course of action here. Let things ride.

**Cancer (June 21-July 20)**

Gossip you hear today might make you angry. You're likely to sense it isn't true. Take nothing at face value today. Check the facts before making any judgments. Discontent is in the air, Cancer, and when people are disgruntled, they tend to say things they don't mean. Avoid the temptation to be confrontational. It will only make things worse.

**Leo (July 21-Aug. 21)**

There is more than meets the eye to a money situation today, Leo. There could be errors in your financial records, or someone may not be telling the truth about an important item. You're a caring, trusting person, but this isn't the day to blindly accept anyone's statements. Check the facts and see for yourself, then act accordingly

**Virgo (Aug. 22-Sep 22)**

Today, Virgo, you probably aren't going to feel very friendly. You're most likely to want to sequester yourself at home and not see or speak to anyone. If your need for solitude is that strong, indulge it. You won't do yourself any good by forcing contact with others. You might feel a little out of sorts physically, so it's especially important to eat right and get lots of vitamin C.

**Libra (Sep 23-Oct. 22)**

Self-control is the word for today, Libra. Others' unethical behavior could trigger some long-buried anger that might make you want to lash out at those responsible. This won't solve anything. The best way to handle these rather explosive emotions is honest communication, but today it could deteriorate into arguments.

**Scorpio (Oct.23-Nov.22)**

Anger and resentment caused by past hurts could come up today, at times tempting you to burst into tears. Don't fight it. Just find someplace where you can be alone and let it out. This is only a symptom of personal and spiritual growth on your part. Releasing the past clears the way for breakthroughs in the future.

**Sagittarius (Nov.23-Dec.20)**

Someone you think of as a friend may prove less than trustworthy today, Sagittarius. There are indications of deception all around you. Perhaps someone is keeping something from you or telling outright lies. Don't be too suspicious of anyone, but check the facts of a situation before you take someone's word for anything. It's always best to do that anyway.

**Capricorn (Dec.21-Jan19)**

Something underhanded is going on, Capricorn. Unethical people could be trying to manipulate certain situations in order to turn them to their own benefit. Be careful! Steer clear of any "political" conversations, and refrain from commenting on any situation or listening to gossip. On the positive side, your intuition is sharp, so you should be able to sense the trustworthy.

**Aquarius (Jan 20-Feb.18)**

If you've been thinking about executing legal papers of any kind, Aquarius, this isn't the day to do it. Any contract entered into today is likely to have confusing clauses and obscure language that you may not understand and that potentially could be used against you. This also isn't the day to start or even plan a journey of any kind. However, it's a great day for reading or meditation.

**Pisces (Feb.19-Mar.20)**

Money matters look uncertain and a bit deceptive, Pisces. This isn't a good day to enter into any kind of investment program, negotiate salaries or commissions, or change banks. Your dreams may be a bit disturbing, but this likely reflects fears from the past rather than dangers in the future. Write them down, however. You may learn a lot about yourself by studying
