### Outlook Horoscope

#### Aries (Mar. 22-Apr.20)

You are well intended when you ask pointed questions today, but people might think you are overstepping boundaries. However, the sensitive Cancer Moon connects you to the moods of others, and you could overcompensate in an attempt to smooth over an awkward situation. You may be so eager to make things right that you appear to be someone's champion.

#### Taurus (Apr.21-May 20)

Your positive outlook may be hiding a deeper set of concerns. Your strategy of sharing lots of personal information could be a smoke-screen to lure others off track. However, this tactic won't likely work now as instant karma lurks in the shadows, ready to strike if you overdo your evasive maneuvers.

#### Gemini (May 21-June 20)

You're searching for your groove today, and it may be a rough ride until you find it. Thankfully, once you discern what works best for you, it's easier to focus on your skills instead of denying your weaknesses. But overbearing Jupiter is in the picture, so you must pay attention to how much energy you expend. Knowing when to call it quits can make the difference between success and failure, especially since your overconfidence sets you up for disappointment.

#### Cancer (June 21-July 20)

Your moodiness can be quite overwhelming now that the emotional Moon is visiting your self-protective sign. Luckily, you're able to overcome lingering insecurities and pursue whatever is in your heart. But you could inadvertently stir up unnecessary trouble by demanding more than you need. Instead of focusing on what's missing from your life, count your blessings; expect nothing and appreciate everything.

#### Leo (July 21-Aug. 21)

You might know exactly what you want and how you're going to change the dynamics of the day to work in your favor. Unfortunately, reality isn't necessarily following your script. Instead of digging in and preparing for a fight with anyone who blocks your progress, try a different approach. Rather than isolating differences, adapt to the needs of others.

#### Virgo (Aug. 22-Sep 22)

You grow tired of ferreting out people's hidden agendas and buried emotional pains today. Ultimately, you may decide to refrain from engaging in games of hide and seek, but your withdrawal sends its own message -- especially since everyone assumes that you Virgos analyze a situation to death before making your move. Don't let your impulsive actions burn any bridges that you might want to cross in the future.

#### Libra (Sep 23-Oct. 22)

Your ambivalence about a significant relationship reaches a critical turning point today. You're eager to put your life back on track and will do nearly anything to earn the approval of those you love. However, you're tired of being the one who carries the weight and does the work no one else offers to do. Whatever you decide, you might end up wishing you took the other course of action.

#### Scorpio (Oct.23-Nov.22)

You want to benefit from the wisdom of your friends and family, but everyone appears to be giving you different advice. Finding the most effective balance between trusting your own conclusions and learning from others is tricky now. Rather than seeking another perspective.

#### Sagittarius (Nov.23-Dec.20)

You are known for your enthusiasm and it's as contagious as ever now. You are an inspiration to others as you tell them about a pet project of yours that's in the works. Although the reactive Cancer Moon squares optimistic Jupiter to magnify your confidence, it's also an all-too-familiar trap that makes everything seem better than it actually is.

#### Capricorn (Dec.21-Jan19)

An emotionally needy person may show up on your doorstep today. Unfortunately, it's all too easy to manipulate your feelings while the clingy Cancer Moon is traveling through your 7th House of Partners. But you don't like the possibility of someone toying with your heart. Attempting to reach a compromise raises the stakes on a developing power struggle.

#### Aquarius (Jan 20-Feb.18)

You might seek refuge from an emotional tug of war today by taking a more intellectual approach to the situation. You naturally excel when moving in conceptual realms, but the sensitive Cancer Moon is blown out of proportion by the magnifying lens of Jupiter, pushing you out of your comfort zone.

#### Pisces (Feb.19-Mar.20)

Ironically, your imagination frees you from fear, anxiety and other emotional constraints today. Your drive to express what's in your heart overpowers any concerns you might be harboring as the reflective Cancer Moon in your 5th House of Creativity teams up with dreamy Neptune. Your unbridled fantasies can carry you on the wings of song, taking you nearly anywhere.
