## Outlook Horoscope

### Aries (Mar. 22-Apr.20)

Although everything at work appears to start out innocently enough today, trouble arises when you become so confident that you stop listening to the advice of anyone else. Thankfully, you can improve the direction of your day by taking everything you hear into consideration. Instead of brushing aside others who don't agree with your strategy.

### Taurus (Apr.21-May 20)

A powerful wind is blowing at your back now, filling the sails of your intentions and driving you into the future. Fortunately, your pragmatic approach to life prevents you from getting lost in idle fantasies and unrealistic dreams. But you may run into resistance from someone who thinks you are glossing over potential problems.

### Gemini (May 21-June 20)

You're a champion at stepping around emotional sinkholes because you would rather keep things friendly and lighthearted. However, the Moon's conjunction with intense Pluto occurs in your 8th House of Deep Sharing, making it difficult to postpone a serious conversation with someone close to you. Don't worry if the process makes you feel uncomfortable; it's not all fun and games when a caterpillar evolves into a butterfly.

### Cancer (June 21-July 20)

You're not afraid to maintain your fixed position today, even if someone tries to exert their authority to change your mind. Normally, you might choose to retreat in order to avoid a power struggle. However, you could surprise others with the fierceness of your reaction now. In fact, people may get more than they bargained for if they attempt to manipulate your feelings.

### Leo (July 21-Aug. 21)

It's futile for your coworkers to argue with you today because you're determined to stick to your original plan no matter what they say. You are inspired by the simplicity of your strategy and, thankfully, have the words at your disposal to make your point. However, an associate may startle you by taking you to task about something you missed. Instead of covering up your mistake.

### Virgo (Aug. 22-Sep 22)

The muse is with you today while the evocative Moon cozies up to evolutionary Pluto in your 5th House of Self-Expression. You feel as if nothing can hold you back or pull you off course. However, a curveball later in the day may shock you into realizing that everything isn't as transparent as you originally thought. Don't just throw your hands up in the air in despair. All your previous work will eventually make sense if you stick with your process.

### Libra (Sep 23-Oct. 22)

Issues from the past might come back to haunt you today, but they're only problematic if you're unwilling to face them. In fact, dancing with the ghosts of your personal history can be surprisingly empowering and oddly liberating. Retelling an old story in a new light enables you to capitalize on the very same things that once restrained you. Dig into the origins of your current feelings, even if they make you feel vulnerable.

### Scorpio (Oct.23-Nov.22)

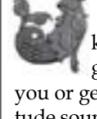

Your words have a profound impact today on those who hear them. The perceptive Moon-Pluto conjunction Pluto occurs in your 3rd House of Communication, influencing your interactions with others. However, people could be overwhelmed by your current intensity, causing them to withdraw suddenly without notice.

### Sagittarius (Nov.23-Dec.20)

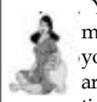

Working with your peers should be a piece of cake today because they genuinely appreciate your good ideas. However, your uneven progress makes it difficult for people to match your rhythm. Your coworkers are uncertain of your next move because your bursts of energy are mixed with periods of inactivity. Fortunately, you still can accomplish a lot because everyone wants to reach the same goal.

### Capricorn (Dec.21-Jan19)

Your certainty is unflappable today. You know what you're doing and where you are going; your coworkers must either support you or get out of your way. Your non-negotiable attitude sounds like a good idea in theory, but in practice leaves only a small margin of opportunity for others to volunteer their talents. Soften your approach if you want others to share in your success.

### Aquarius (Jan 20-Feb.18)

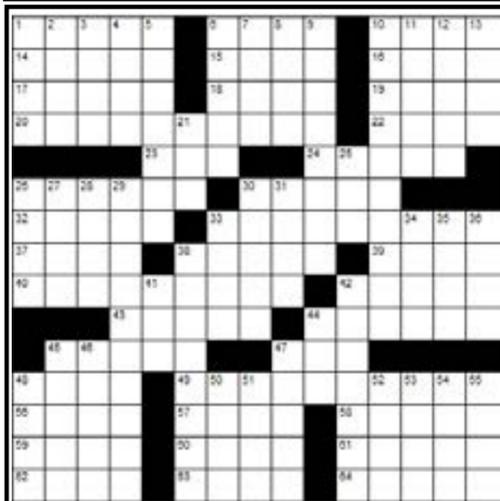

You are so strongly opinionated now that you might believe it's wise to keep your feelings to yourself, especially when your changing moods are so extreme. The Moon's powerful conjunction with passionate Pluto in your 12th House of Secrets enables you to hide your reaction to potentially explosive words. Unfolding your truth gradually is the most reliable path to simplifying complicated dynamics.

### Pisces (Feb.19-Mar.20)

Your intuition is on fire today and you are driven to make sure that everyone around you shares in your vision. However, explaining yourself in great detail won't muster the support you seek. In fact, even your most dependable allies may grow weary of your long and rambling monologue. Don't wait for someone's eyes to glaze over before you stop talking because by then it will be too late.
